

About Us

The Avian, Exotic and Zoo Medicine (AEZ) Service treats a variety of extraordinary animals from privately owned exotic pets to zoo animals to free-ranging wildlife.

OSU offers the latest in veterinary medicine care to nontraditional animals such as birds, reptiles and small mammals.

The AEZ team has access to modern veterinary medicine technology including CT scanners and an MRI.

The interdisciplinary style at the Veterinary Medical Hospital allows the AEZ team access to many board certified specialists in fields such as surgery, anesthesiology, ophthalmology, radiology and more.

Early detection of problems, proper husbandry, good nutrition and wellness exams including blood work and vaccinations can help keep your animals healthy.

Avian, Exotic and Zoo Medicine Oklahoma State University

To participate in the care of local wildlife you may do so by making a donation to the program. Your contribution benefits all injured and orphaned wild animals admitted to the OSU Veterinary Medical Hospital.

Meet the Staff

João Brandão, LMV, MS

Dr. Brandao earned his veterinary degree from the University of Trás-os-Montes e Alto Douro in Vila Real, Portugal. He completed a three year zoological medicine residency and Master of Science degree in Veterinary Clinical Sciences at the Louisiana State University.

For an appointment, call **(405) 744-7000**

Who benefits?

The OSU Veterinary Medical Hospital provides veterinary services for a large variety of exotic pets. These exotic pets represent and include those which are not considered to be a native wildlife species.

Funding

Currently, the Avian, Exotic and Zoo (AEZ) Medicine Service has limited hospital funds to care for wildlife. The program relies on the generosity of private donations to cover the costs for primary health care. These costs include medications, surgery, nutrition and extended hospitalization of wildlife patients.

To partner with AEZ Service contact Sharon R. Worrell, 308 McElroy Hall, Stillwater, OK 74078 405-744-5630 or sworrel@okstate.edu

Appointments call 405-744-7000

Office Hours Monday - Friday 8 a.m.— 5:00 p.m.

Patient visits are by appointment only. Emergency cases are seen if referred by your veterinarian.
